

Could your little patients benefit from a hearing test or therapy support with Hear and Say?

Hear and Say are leaders in Paediatric Hearing, Listening, Speech and Development with over 26 years of experience.

Our knowledgeable, friendly therapists and audiologists are here to help your young patients reach their goals. With comprehensive expertise in supporting children with hearing loss, developmental delay and more, we provide a supportive and welcoming environment for families across Queensland.

As a registered NDIS provider, we are experienced in helping families make the most of the opportunities the NDIS brings, to get the best outcomes for their child.

We accept all referrals and clinical eReferral templates are available on our website www.hearandsay.com.au/contact/referrals/

We are NDIS Able!

Our team have been helping families navigate the NDIS for almost three years. We can assist your families to prepare for NDIS by:

- Listening to the needs of families and developing clinical programs
- Helping families prepare for their NDIS assessment
- Supporting families through every step
- Delivering therapy and achieving goals

Audiology and Therapy services

Our experienced and friendly multi-disciplinary team provides support services for families from birth, early intervention, school age and beyond.

We're here to help children with:

Audiology

Speech Pathology

Occupational Therapy

All our therapy services are available via Telepractice, making us accessible for families wherever they live. We can also assist with physiotherapy, psychology and social work.

When you need these patient services for your practice, you can trust Hear and Say.

Speech Pathology and Occupational Therapy

Hear and Say provides assessment, therapy and consulting services for children and their families, as well as with teachers or other important people in a child's life to help them achieve their goals.

We are Queensland's number one service for deaf children to access the Auditory-Verbal Therapy approach.

Our team specialise in helping children develop language, speech and literacy skills and can help address issues such as learning difficulties, social skills and stuttering.

Service	Description	Price
Screening Assessment	Quick check of speech sounds, talking, motor, cognitive, understanding and literacy skills	\$105 (30 min)
Full Assessment	Comprehensive testing of speech, language, literacy fluency and social skills and may include screening of cognitive skills	\$180 (1 hour)
Speech Therapy/Treatment	Parent focused training sessions to work on goals identified by families as priority for treatment, including speech, language or literacy	\$105 (30 min)
Assessment Report	Comprehensive report detailing scores, errors made in the assessment and interpretation important for children with a range of difficulties in communicating	\$180 per hour
